There were neatly arranged glass-cases which displayed ancient swords, daggers, garments, ornaments, coins, bows and arrows. There were tags with brief descriptions on most of the items on display. Fashion

It is an age of fashion. The fascination of fashion is very strong in our cities. New generation runs after fashion. The old and the young know well the importance of fashion. Everybody wants to be smart and up to date. Women follow fashions blindly. Radio T.V. and newspapers advertisements are responsible for this entire race in the field of fashions. These advertisements have captured the attention of all kinds of people. They have also affected even the middle and the lower class of our people. Now all are the victim of fashions. The garment and cosmetics industry and their attractive commercial advertisements have played a leading role in the spread of fashions. In this way, a lot of money is wasted on fashions. Wears, powders, perfumes, fabrics, footwear, furniture, fast food and video films have become the fashion of the day. Fashions spread very quickly. But being Muslims we should be on our guard. Our religion teaches us to lead a simple and clean life. We should not follow the ways of the other nations. We should follow the teachings of Islam. In this way, we can get rid of fashions. After being free from fashions we can lead a happy and contented life. We should know that all social evils are due to the craze of following the latest fashions blindly. It should be avoided as far as possible.

Guess Papers

- Q.6 Write a paragraph of about 70 to 80 words on any one of the following: (06)
"An Industrial Exhibition" OR "How to keep our town clean"

Ans:

An Industrial Exhibition

An industrial exhibition was arranged in Islamabad in March last year. The intention of the organizers was to exhibit industrial products at one place. The trading community and the general public showed keen interest in the products. Accompanied by my elder brother and sisters, I went round the elegant and brightly lit stalls. Exhibits included textiles and garments, electrical goods, household items, handicrafts, glass wares, furniture, sewing machines and stainless steel. The Pakistan Railway and Wapda had put up very informative stalls. Heavy industrial goods, rollers, water pumps, tube-well equipment, motors, fertilizers and machinery were also on display. Prices of consumer goods were quite reasonable. Manufacturers were selling their products at reduced rates. Besides, there were food and entertainment stalls which attracted the cheerful crowds.

(OR)

How to Keep our Town Clean

Cleanliness is next to godliness. We must give a serious thought to this golden truth. Neat and clean environment has a cheerful effect, it is a sure sign of civilization. Knowledge is a great blessing of Allah. We are fortunate to have the opportunity to receive education. As school going boys and girls it is our responsibility to keep our town clean. We ought to develop civic sense. We should not throw fruit and vegetable peels all over the street. A banana or melon peel thrown carelessly on the road can cause a fracture or even death, plastic, polythene and wooden items should not be thrown into main holes. A choked gutter spreads filth and stench all over the street. Life become miserable. Spitting is another problem as it causes disease and in sanitation. We can politely prevent one another from spitting on floors. We should not throw hard things or stone in toilets. We should not be shy taking a broom and sweeping the littered portion of the street in front of our door. We should take care of trees, plants and flower-beds in a park. If we happen to pass by an unattended running water tap, we should stop and close it. As citizens we should be vigilant and report to the municipality if its staff neglects its duty. We can also add to cleanliness if we sprinkle water on our portion of the road. Dust and pollution can be effectively controlled if every one of us lends a helping hand. God loves people who practice purity and cleanliness.

If we happen to pass by an unattended running water tap, we should stop and close it. As citizens we should be vigilant and report to the municipality if its staff neglects its duty. We can also add to cleanliness if we sprinkle water on our portion of

- A. What does the author mean by saying "the seeing see little". Explain in a paragraph.

Ans: By saying "the seeing see little" the author means that of her seeing friend are not keen observer of the object of the nature. They do not know how seen properly. She visited a very good friend who had just returned from a long walk in the woods, she asked her what she had observed. "Nothing in particular," she thinks how is it possible that hundreds of things to interest me through mere touch. It often happens that most of us do not use our sense of seeing to have complete sight of all the object of nature.
